Education

University of Jaffna

Sri Lanka Oct 2022 – July 2025

- B.Sc.in Information Technology

Sivali Central College

Rathapura, Sri Lanka 2011 - 2019

- GCE Advanced Level - Common Stream (2020)
- GCE Ordinary Level -ICT and App. of English Literature (2016)

Experience

Full Stack Developer (Intern)

Enigma IT Sri Lanka

Full-time

2024 - Present

- Developing and maintaining full-stack web applications using modern technologies
- Collaborating with cross-functional teams to deliver high-quality software solutions
- Implementing responsive designs and ensuring optimal user experience
- Working with both frontend and backend technologies to build scalable applications
- Contributed to the QA process to ensure software quality and reliability
- Helped in deployment Process of the deveped projects into production

Used :-**React Next.js Node.js Express Electron.js MySQL MongoDB**

Projects

For the love of Travel

Project -2025

- Technologies :-Node.js, Express, MongoDB ,Next.js,Tailwind css [GitHub Link](#)
- Contribution – Contributed to the development of the website and a full-featured admin panel, implemented content management for articles, pages, and site content, and participated in QA activities including testing and issue resolution during development.
- Live Link:- [For the Love of Travel](#)

ZimplyBook(POS System)

Project -2025

- Technologies :-**Backend:** Node.js, Express, MongoDB [GitHub Link](#) | **Frontend:** React, JavaScript [GitHub Link](#)

- Contribution:-Accepted an unfinished project and made it fully functional, built a desktop application using Electron.js, corrected the main workflow, fixed non-functional authentication and authorization, resolved database data-fetching issues, and carried out the full QA process.
- Live Link:- [Zimplybook](#)

TrackNgo

Final Year Group Project -2025

- Technologies :-**Backend:** Node.js, Express, MongoDB  [GitHub Link](#) | **Frontend:** React, JavaScript  [GitHub Link](#)
- Contribution - Led the design and development of the **Lost and Found** subsystem using MVC. Contributed to requirement analysis and system design, and assisted in debugging across the project.
- Supervised By:-K.Madanaharan,Lecturer,University of Vavuniya

Fresh Farm Food Selling platform [GitHub Link](#)

2nd Year Project -2024

- A platform that connects local farmers directly with customers, eliminating intermediaries and promoting fair, fresh produce distribution.
- Technologies - React, MongoDB,Express.js,Node.js
- Contribution - Entire project designed and developed individually as my first pilot project using the MERN stack.
- Supervised by- S.Gopinath,Instructor,University of Vavuniya.

Boarding App [GitHub Link](#)

Solo Project-2024

- A mobile application built to address the challenge of finding boarding accommodations in rural and semi-urban areas like Vavuniya, where my faculty is located.
- Technologies - React Native,Node.js
- Contribution - Fully designed and developed the entire application independently and using LocalData, making it my first mobile app development project from start to finish.

Rent it (E-Commerce Site) [GitHub Link](#)

University Project -Jan- 2025

- An advanced web application for finding and renting boarding accommodations, developed as a continuation of my mobile **Boarding App**, aimed at solving accommodation issues in areas like Vavuniya
- Technologies - Next.js, Spring Boot, MySQL
- Contribution - Independently designed and developed the complete system, including both frontend and backend functionalities.

Skills

- Programming Languages: Java, PHP, C, JavaScript, Typescript ,C++,C#
- Front End Development: React, Next.js, Tailwind CSS, Bootstrap
- Back End Development: Spring boot, Node.js, Express, PHP
- Tools And Other:Electron.JS,Aws,Vercel,Vs Code,Figma,Jira
- Database: MySQL, MongoDB
- Version Control: Git, GitHub.
- Familiar with CI/CD pipelines using tools like **Git**, and **GitHub Actions**, with basic experience in automating build, test, and deployment processes.
- Understanding of containerization with **Docker**, server management, and monitoring tools; capable of working in collaborative, Agile environments.
- Soft Skills: Adaptability, Analytical Skills, Active Listening, Creative Problem-Solving, Planning, Teamwork

Awards

[CodeSpark V7.0 – 2nd Place](#)

- o Secured 2nd place in the CodeSpark V7.0 competition, showcasing exceptional problem-solving and coding skills

Exrtra Curricular Activities

University Rugby Team Member

2023 - 2025
